I am a user-focused **Front-end developer** with hands-on experience in creating dynamic user-friendly web applications using **React.js** and integrating them seamlessly with **RESTful APIs**. I am an innovative, creative and proven team player. I am committed to delivering captivating digital experiences through innovative design and robust functionality.

TECHNICAL SKILLS

- HTML
- CSS,
- Javascript,
- Tailwind CSS
- React.js
- Version Control Systems,
- APIs integration,
- Unit Testing
- Accessibility,
- Responsive Design

WORK EXPERIENCE

FLEXISAF EDUSOFT LIMITED

Frontend Developer: May 2024 - Present

- Continuously improving web applications by employing image optimization technique resulting in remarkable 4% reduction in website load time, enhancing overall speed and user experience.

- Utilizing sematic HTML to improve website accessibility, ensuring compatibility with assistive technologies and enhancing usability for all users, contributing to an increase in user satisfaction.

- Worked closely with UX/UI designers to translate design prototypes into functional, visually appealing web interfaces, enhancing user interface consistency and visual appeal.

INTERSWITCH GROUP

Internship: Mar 2024 - May 2024

- Developed an admin management of blacklisted items web application by integrating backend APIs using React.js to ensure smooth data flow and functionality, resulting in a 2% improvement in data management efficiency

- Worked closely with other developers and team members to contribute to the development of web applications, gaining practical experience and insights

- Gained experience with version control systems like Git, learning to manage code changes and collaborate effectively with the development team.

GIGLINK TECHNOLOGIES

Frontend Developer (Volunteering): Jan 2024 - May 2024

- Contributed to the development of the organization's web application, focusing on enhancing the user interface using React.js and Tailwind CSS for a seamless and responsive design, resulting in an increase in user engagement.
- Seamlessly integrated with API endpoints provided by the backend team, utilizing asynchronous JavaScript to fetch, display, and manipulate data in real-time, significantly improving the application's interactivity and user experience.
- Refactored existing codebase to improve efficiency and performance, reducing page load times and enhancing overall application speed.

PROJECTS

E-commerce Website in Development

- ❖ Developing a responsive e-commerce website using React, enabling users to browse products, add items to the cart, and complete orders securely.
- ❖ Key features of the website include: Dynamic product catalog, which will allow users to effortlessly browse through a wide range of products with intuitive navigation and filtering options Robust shopping cart system, enabling users to add and remove items, view cart contents, and adjust quantities seamlessly.

MarketMate 🔗
Key Contributions:

- ❖ Frontend Development: Contributed to the design and implementation of a responsive user interface using React.js and Tailwind CSS
- ❖ Testing and Optimization: Conducted extensive testing to ensure functionality, usability, and reliability. Implemented performance optimizations that resulted in a 5% increase in application responsiveness.

TRAININGS AND CERTIFICATIONS:

Software Development   Feb 2023 - Aug 2023
New Horizon Training Institute

Frontend Software Development   Mar 2023
Tech4Dev Women Techsters Bootcamp

Frontend Software Development   Oct 2023-Present
Tech4Dev Women Techsters Fellowship

Web Development Certificate   Nov 2023
FreeCodeCamp

EDUCATION:

Masters of Science in Food Science and Technology   Nov 2016 - Jul 2019
Obafemi Awolowo University, Ile-Ife

Bachelors of Technology in Food Science   Oct 2009 - Apr 2014
Ladoke Akintola University of Technology
